Subject: Notice of Violation Letter dated March 17, 2008
The Cotswolds
NPDES Registration ALR16D930

Dear Mrs. Farrell

SpreadRite Organics, LLC is providing this letter on behalf of Cotswald Development, LLC. As a follow-up response to the attached referenced Notice of Violation for The Cotswolds, we submit this letter certifying that measures have been taken to correct deficiencies noted by ADEM.

ADEM noted the following deficiencies in the March 17, 2008 Warning Letter:

1. BMP's were not adequate to prevent a water quality violation.
2. Sediment basin discharge outlet did not seem to be installed according to the Alabama Handbook.
3. Silt fencing had been installed across a stream.
4. Slopes needed to be further stabilized.
5. Turbid water had been pumped into the UT to Little Cahaba River.

Cotswald Development, LLC has addressed above deficiencies as follows:

1. BMP's have been added to reduce sediment loss from site. In addition, regular street and inlet maintenance have been implemented and street sweeping had been completed the day before the inspection date.
2. Sediment basin discharge outlet has been restructured to allow for adequate holding time. The concrete riser pipe has been modified to increase holding capacity of the pond.
3. Silt fencing has been removed from across the stream.
4. Slopes have been further stabilized with hydromulching.
5. Sediment traps for pumping have been elongated to allow for greater capacity for sediment removal. The sediment traps are being maintained between pumping by replacing the jute netting, floc logs, and adding flocculent as needed. This visit was directly after two sizable rain events in a 24 hour period.

SpreadRite Organics, LLC appreciates our involvement in this situation regarding environmental compliance for the State of Alabama. We will continue to monitor water quality and provide the best methods for each situation. Please feel free to contact us with any additional questions regarding this project at (205) 980-7483.

Sincerely,

SpreadRite Organics, LLC
